Special Instructions for the "Vitruvius" Work Order (Addendum to Data Entry Specs 2.0)

Wolfgang Schmidle, Klaus Thoden, Malcolm D. Hyman

Max Planck Institute for the History of Science, Berlin, Germany

4th June 2009

1 Handwritten Notes

Handwritten underlining is marked by `<ul hd> </ul>`. Handwritten strokes through words are marked by `<st hd> </st>`.
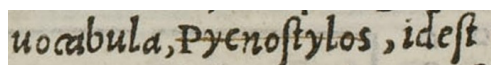

All other handwritten notes or figures are marked by `<hd>` on a separate line after the line of the main text to which the note or figure is closest. Do not type the note itself. Do not indicate the ink colour.
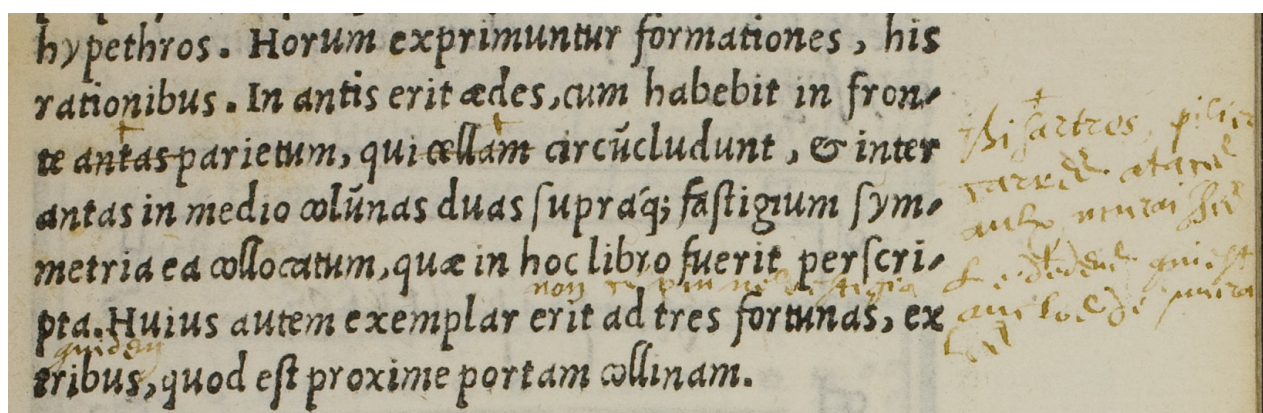

Example 1: underlining

```
vita, <ul hd>Epicurus</ul> vero
```

Example 2: stroke through a word

```
uocabula, <st hd>Pycno$tylos</st>, id e$t
```

Example 3: handwritten notes between lines and in the margin
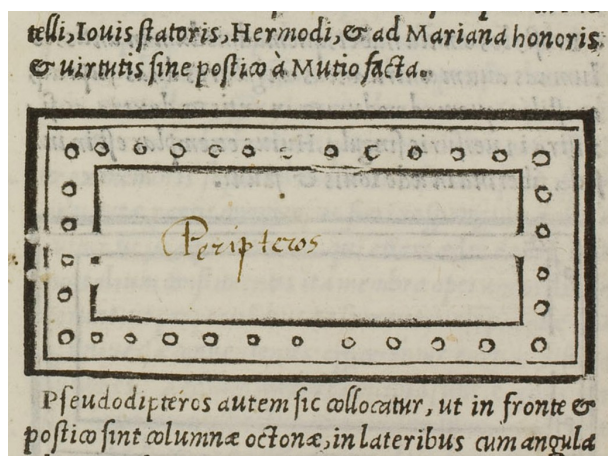

```
01  <p it> ...
02  hypethros. Horum exprimuntur formationes, his
03  rationibus. In antis erit ædes, cum habebit in fron-
04  <hd><hd>
05  te <st hd>antas</st> parietum, qui <st hd>cellam</st> circ\~ucludunt, & inter
06  <hd>
07  antas in medio col\~unas duas $upra\'q; fa$tigium $ym-
08  metria ea collocatum, quæ in hoc libro fuerit per$cri-
09  <hd>
10  pta. Huius autem exemplar erit ad tres fortunas, ex
11  <hd>
12  tribus, quod e$t proxime portam collinam.<hd>
13  </p>
```

Please note: The two <hd> in line 04 denote the two crosses above the struck-through words. Line 06 denotes the handwritten note in the margin. Lines 09 and 11 denote handwritten notes between lines of printed text.

Example 4: handwritten note within a figure

```
<p it> ...
telli, Iouis $tatoris, Hermodi, & ad Mariana honoris
& uirtutis $ine po$tico à Mutio facta.</p>
<fig>
<hd>
</fig>
<p it>P$eudodipteros autem $ic collocatur, ut in fronte &
po$tico $int columnæ octonæ, in lateribus cum angula
... </p>
```
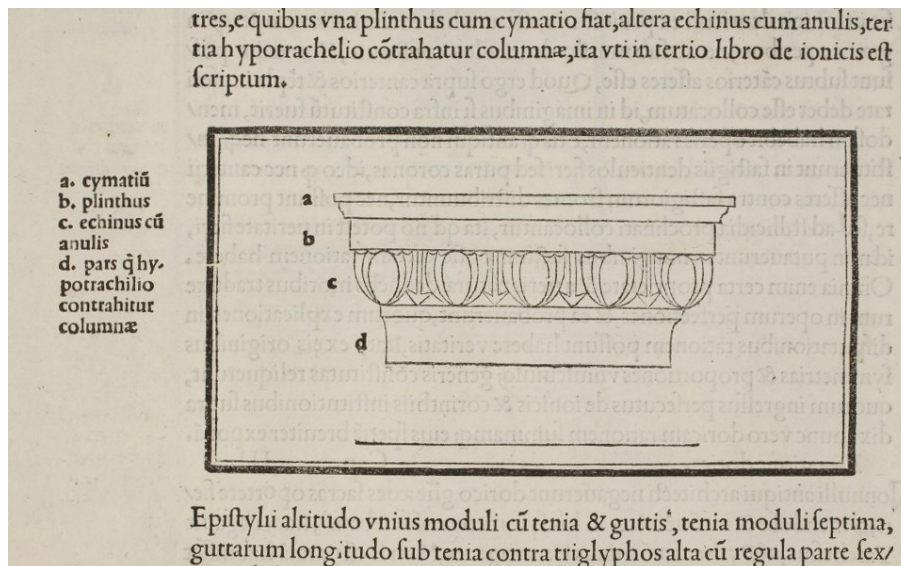

2 Figure Descriptions in the Margin

Marginal notes to the left or right of figures are figure descriptions. Mark them by <desc> </desc>.

Use one <desc> tag for each paragraph. As always, type the <desc> tags between the <fig> and </fig> lines. The position of the description in the left or right margin is not encoded.

Example

```
<p> ...
tres, e quibus vna plinthus cum cymatio fiat, altera echinus cum anulis, ter
tia hypotrachelio c\~otrahatur columnæ, ita vti in tertio libro de ionicis e$t
$criptum.</p>
<fig>
<desc>a. cymati\~u</desc>
<desc>b. plinthus</desc>
<desc>c. echinus c\~u
anulis</desc>
<desc>d. pars \~q hy-
potrachilio
contrahitur
columnæ</desc>
<var>a b c d</var>
</fig>
<p>Epi$tylii altitudo vnius moduli c\~u tenia & guttis, tenia moduli $eptima,
guttarum longitudo $ub tenia contra triglyphos alta c\~u regula parte $ex-
... </p>
```
3 Latin Abbreviations and Diacritics

In addition to the ligatures given in the Data Entry Specs 2.0, please resolve the abbreviations {ur} and {us}.

As always, a tilde above a letter is marked marked by \~. Especially above the small letter i, make sure to distinguish between the normal dot above the i and a tilde.

List : additional abbreviations and diacritics

```
$truant{ur}    ornat{us}      \~itercurrunt
```
